Web Orders System

MISSO 16/17

MISSO@MFR.USMC.MIL

(816)926-5188/5187

DSN 465-5188/5187

Purpose of WEB ORDERS

- To improve the functionality of the current orders process (AOWPS) by maximizing the expanded features of the internet and integrating this functionality with the inherent capabilities of the Monitor Assignment Support System (MASS).
- MASS is a HQMC application that is used to assign Marines PCS/PCA orders via the Web Orders System, this system is used by HQMC only.

The Enhanced Functionality of WEB ORDERS will include:

- **The capability to distribute full-text orders in a format that is printable from the internet to all HQMC designated recipients.**
- **An enhanced tracking capability for all HQMC designated recipients to monitor the disposition of orders at all times.**
- **A security system that allows positive management of orders delivery and receipt.**
- **Gives the local MISSO authority to assign, update, or delete order writing activities access to Web Orders.**
- **Gives the order writing activity an endorsement within the web orders system.**

GOAL of the WEB ORDERS SYSTEM

- To complete the full automation of the assignment process, practically eliminating the use for naval messages.
- The Goal will be achieved in a two phase process.
- To combine both officer and enlisted orders under one joint system.

PHASE ONE

- Will allow monitors to assign Marines PCS/PCA through the MASS application, with delivery and receipt utilizing web orders.
- Will update MCTFS for both officers and enlisted alike.
- Will provide detailed orders unlike aowps, these orders will be easy to read, reducing the need to decipher confusing acronyms and verbiage.

PHASE TWO

- Will allow the operating forces to have an automated means to project inbound/outbound (queries) Marines.
- Will provide the capability for individual Marines to receive orders notification via the email address in their active MOL account.

This is the Web Orders. Print these orders and endorse them just as you have done with AOWPs. At this point each unit will still need to run an Orders Acknowledgement.

Any questions, Contact MISSO 16/17.
